

Strategic Operations, Agreements, and Regulation

Our business is taking care of your business

Our internationally recognized Strategic Operations, Agreements, and Regulation (SOAR) team provides practical, commercially relevant advice informed by a deep understanding of suppliers, customers as well as other stakeholders along the entire supply and value chain including regulators. More than 50 lawyers in multiple jurisdictions help you develop successful business models, foster strategic relationships, and steer you through complex regulations, as well as anticipate and manage risks. We help you move your business forward.

Whether you are evaluating purchasing or distribution structures, restructuring your business operations, digitizing your supply chain, launching an e-commerce platform, introducing Al solutions, facing regulatory issues, or implementing sustainability objectives, our experienced team provides the support you need.

We provide advice regarding commercial, distribution and foreign trade law, as well as product-related regulations along the entire supply and value chain. Clients turn to us to coordinate and run major projects across the globe; many of the matters we work on have a cross-border, regional, or global element.

Our industry sector experience and knowledge distinguishes us.

We advise clients across a wide range of industries, including: Aerospace & Defense; Automotive; Consumer; Diversified Industrials; Financial Institutions; Food and Beverages; Industry 4.0; Life Sciences, Health Care & Pharma; Technology, Media & Telecommunications; and Transport and Logistics.
